SUPPLEMENTARY INFORMATION:

I. Background

FDA is announcing the availability of a draft guidance for industry entitled "ANDA Submissions--Amendments and Requests for Final Approval to Tentatively Approved ANDAs." This guidance is intended to assist applicants in preparing and submitting amendments to tentatively approved ANDAs, including requests for final approval. This guidance provides recommendations on the timing and content of amendments to tentatively approved ANDAs to facilitate submission in a timely fashion to enable final approval on the earliest date on which the

ANDA may lawfully be approved based on patent and/or exclusivity protections ("earliest lawful ANDA approval date").

If an ANDA meets the substantive requirements for approval but cannot be finally approved by FDA because of unexpired patents or exclusivities, FDA will tentatively approve the ANDA. Under section 505 of the Federal Food, Drug, and Cosmetic Act (FD&C Act) (21 U.S.C. 355), a drug product that is the subject of a tentatively approved ANDA is not an approved drug and may not be marketed without final Agency approval. In addition, under section 301 of the FD&C Act (21 U.S.C. 331), the introduction or delivery for introduction into interstate commerce of such a drug product before the final approval date is prohibited.

An ANDA applicant may submit amendments to a tentatively approved application that propose changes to the application, request final approval, or propose changes *and* request final approval. As described in the draft guidance, an amendment may delay FDA's final approval of the ANDA until after the earliest lawful ANDA approval date, depending on the nature of the changes proposed in the amendment and any related deficiencies identified upon review. The draft guidance is intended to assist applicants in preparing an amendment for submission in a timely fashion to obtain final approval on the earliest lawful approval date. In particular, applicants that wish to request final approval should determine whether changes are necessary before requesting this final approval, review any changes that have been made to their application since the tentative approval was granted, and consider the possible review goal dates that may be assigned to the request for final approval to request final approval in a timely fashion.

This draft guidance is being issued consistent with FDA's good guidance practices regulation (21 CFR 10.115). The draft guidance, when finalized, will represent the current

thinking of FDA on "ANDA Submissions--Amendments and Requests for Final Approval to Tentatively Approved ANDAs." It does not establish any rights for any person and is not binding on FDA or the public. You can use an alternative approach if it satisfies the requirements of the applicable statutes and regulations. This guidance is not subject to Executive Order 12866.

II. Paperwork Reduction Act of 1995

This draft guidance refers to previously approved collections of information found in FDA regulations. These collections of information are subject to review by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520). The collection of information for the submission of ANDAs under 21 CFR part 314, subpart C has been approved under OMB control number 0910-0001. In accordance with the PRA, prior to publication of any final guidance document, FDA intends to solicit public comment and obtain OMB approval for any information collections recommended in this guidance that are new or that would represent material modifications to those previously approved collections of information found in FDA regulations or guidances.

III. Electronic Access

Persons with access to the internet may obtain the draft guidance at either <http://www.fda.gov/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/default.htm> or <https://www.regulations.gov>.
